

10KW C type VAWT technique parameter	
power	10KW
the diameter of wind wheel	4.5m
the length of the blades	2300mm
the number of blade	12 blades
rated rotate speed	150(r/min)
rated wind speed	10 m/s
start up wind speed	3m/s
working wind speed	3-30(m/s)
security wind speed	50(m/s)
rated power	10KW
the max power	12KW
output voltage	220V
the height of tower	12m
the top part weight	380kg
guy cable tower type	273 steel pipe
output control system	charger control, inverter
Necessary battery	12V200ah, 30 pcs
